

Alysabeth Alexander for Political Action Committee Chair

Dear Brothers and Sisters: Please support me for Political Action Committee Chair. I look forward to working with you to build our political strength and restore our relationships with politicians, and labor allies.

As a community organizer, I've trained new, politically savvy leaders and built coalitions. I ran political campaigns in California and other states and have worked to develop policies and ballot measures. As SF COPE Tri-Chair, I fought for transparency and democracy, especially in finances. During last year's budget fight, I worked to bring many new community groups together with our union.

Over the last 3 years, SEIU 1021 appointed leadership has damaged important relationships with politicians, political groups, and unions. Except for a few last-minute rallies, our local was absent on the statewide budget fight, a mistake that hurt counties and school workers. This year's elections are very important: Governor, CA State Legislature, Local races, ballot measures that attack pensions. I will work with statewide SEIU, community and labor allies to protect our pensions and elect pro-labor candidates. Please vote [Change 1021!](#)
