

Amy Dooha for Alameda County Area Representative

I believe in a member-driven union taking SEIU 1021 in a new direction. I will continue to work against the corporatization of this union. I pledge to take the issues that are most pressing in your workplace to the next level, while building a strong and cohesive Local. We need a union that listens and strong leadership that stands up for workers. We need paid staff with manageable workloads enabling them to support and build worksite leadership while defending workers' rights and contracts.

Working for Alameda County I have served for 21 years on Labor Management Teams representing all Social Service Departments. After ten years as a steward, I am currently Chief Shop Steward. I was a member of the SEIU 535 Executive Board for seven years prior to the conversion to 1021, and have been a member of the Disabilities, Women's, Social & Economic Justice and County Industry committees working with members from other areas and industries.

I am running as a www.Change1021.org organization candidate; please see our guiding principles. A vote for me is a vote for change and true representation.
