

Crawford Johnson for 2nd Vice President

I believe in a member-driven union from the bottom to the top, where worker issues are the main focus. Since the merger, much is still needed to complete the transition to the larger Local. Many members have been left uninformed regarding work related issues, contract violations, and missed timelines because worksite organizers don't have manageable workloads and realistic territories.

I am currently a two-term Chapter President of Sacramento City Unified School District which has 2,200 members and 94 sites. I am also the Chief Steward at Large and actively involved in member representation of many of our 94 worksites.

Most of all Local 1021 must find a way to start a realistic healing process so younger and newer members will be proud to get involved in unionism. I will work hard to strengthen our union and return power and priority to rank-and-file membership. I suggest you visit www.change.org. At that website you can familiarize yourself with our Change 1021 slate of rank-and-file candidates.

In solidarity,
Crawford Johnson
