

David Turner for County Area Representative from San Francisco

Brothers and Sisters of 1021, as former Executive Vice President of Local 790, I have been involved from the very beginning when the merger of 1021 was proposed by the International, and the follow-through.

Information, accountability, and communication have often been lacking since the merger, leading many members to feel disenfranchised and unappreciated as their dues continue to be collected. Solidarity within the new Local is a continuing my vision as we defend and fight to maintain a labor movement in America. As an E-Board Member, I will inform you of all the debates, decisions, and actions that the board initiates. Building a new local that members can be proud of and stand up for against the enemies of working people has always been the goal we have been striving for.

Having given up my personal time for the last two years to participate in the bylaws committee, and establish our new Bylaws I know now that we have been Pilgrims, on a road called Discovery. Please visit www.change1021.org for more information.
