

Larry Bradshaw for 3rd Vice President

Our current leaders said, “Let’s merge all the Northern California Locals into one gigantic Local to increase our strength.” The recession and the assault on the public sector and on the non-profits put 1021 to the test. At best, our Local’s response has been anemic. In many locations, there has been no response. Our Local lurches from one crisis to the next. We have no strategic plan to fight layoffs. No campaign to preserve public services. Everywhere I go in this Local, I am impressed with the energy and the creativity of the Members, but the talent of 1021’s Rank and File goes untapped. We could be doing and achieving so much more.

We have the talent. We have the resources; a 45 million dollar annual budget. What we lack is leadership. The other slates have been in power for 3 years. We can not afford 3 more years. It is time for Change1021. We must rebuild our Union from the bottom up. I have extensive experience doing that in SEIU, ILWU, Machinists and Teamsters. Let’s work together to defend our contracts, jobs and pensions! Vote the Change1021 slate!
