

Michael Tong for SF Budget & Finance Committee Representative

Many of us will be facing the possibility of having our wages cut and being unable to provide for our families-or losing our jobs altogether. I want the financial resources of 1021 used to help our members by looking for creative ways to mitigate these budget shortfalls, as well as for rallies, and lobbying.

I have been a City and County Employee here for the last 14 years and have been actively involved with SEIU since 2003 when the union helped me and my co-workers during a departmental takeover. I started as a Shop Steward representing members in my department as well as others. I was on our Contract Negotiating Team 2004, 2006, and 2009. Currently, I am part of the Strategic Budget Committee doing Political Lobbying, Member Engagement, and Community Outreach to help fight service cuts, layoffs, and demotions that SEIU city workers are facing.

We have a big fight ahead, but with enough resources, our greatest resource-the members, will be a force to be reckoned with. Please visit www.change1021.org for more information about our vision for our union.
