

Pamela Morton for Secretary

Our Bylaws were adopted by the membership and approved by the International. This milestone now paves the way for the first democratic election since 1021's inception. Public employees have been under attack for a couple of decades. As Secretary, I will work hard to strengthen our Union and return power and priority to the rank and file membership.

I've long been a community activist committed to social and economic justice. I have thirteen years of service in the Housing Authority of the County of Alameda bargaining unit. I'm a member of 1021's Stewards Council, and Steward certified with several years experience. I'm actively involved in member representation at my worksite. As a Member Advisory Committee member I advocated diligently to put forth a democratic set of Bylaws and processes for transparency and accountability.

I strongly encourage you to visit www.Change1021.org and familiarize yourself with the Change slate of rank-and-file candidates running for elective offices. Members, now is the time to vote for change. In Union Solidarity Promoting Positive Change, Pamela Morton
