

Ron Colbert for Retiree Council Committee Chair

I found that there are over 3000 retirees in Local 1021 and only about half of them are active members. SEIU Resolution 101, adopted at the 2008 SEIU Convention, states: “Members of our union today stand on the shoulders of our retired members who fought for the rights and living standards we enjoy today”. Retirees have vital experience and talent to contribute and can play an important role in supporting our campaigns to build workers' strength in our industries and sectors.

I am a recent retiree from the Sacramento City Unified School District. Currently, I am a delegate to the Member Advisory Committee, the School Industry Council, and Member Organizing and Political committees. My union background goes back with Local 22, 790 and 1021 as 1st President of SCUSD chapter, Chief Steward and Bargaining team.

I am committed to creating opportunities for retirees to stay active with fellow union members, both socially and through political and union activism. Please visit www.change1021.org for more information about me and the candidates I am running with.
