

## Sin Yee Poon for Chief Elected Officer

I will work with the Executive Board and the members to ensure that our Union is responsive to members' needs.

- Representation and contract enforcement will become the primary function.
- The membership, as the “highest authority,” will make the decisions that affect them.
- Union staff will be accountable to the members they serve.
- Union business, worksite transactions, contract negotiations, budget and spending decisions will be transparent and in accordance with members' goals and priorities.

Graduate of U.C. Berkeley, I began my union activism in Local 2 (now Unite Here!), in the leadership during the maids' struggle to reduce room quotas, during the 1980 hotel strike involving 36 hotels, and as the youngest Business Agent on staff. I also worked for Local 250 (now UHW) and organized an unprecedented 100% strike vote at Children's Hospital (now CPMC).

I am the SFHSA Chapter President (for ten years). Our Chapter is member-run. We engage in all interactions with Management and we handle grievances from Step I through arbitration.

I ask for your support to make our Union truly member-driven/member-run. Please visit [www.change1021.org](http://www.change1021.org) for additional information and our vision for our Union.
