

Roxanne Sanchez For President

Dear Fellow Union Members,

Our Union has weakened over the last three years leaving us to deal with constant changes in Worksite Organizers, or with no staff help at all – fending for ourselves. Bargaining Teams have seen their Chief Negotiator change *during* negotiations, and many staff have left due to poor working conditions.

What happened? Our current Officers made at least two serious mistakes that have led our Union to the current crisis in representation: their ‘corporate’ management style, and their indifference towards the membership – ignoring the importance of prioritizing power at the work-site.

I am running with a team of experienced rank-and-file leaders and we are seeking your support in this election. We are committed to changing our Union’s direction – making it strong and responsive to the needs of its dues-paying members.

I currently work as a Community Organizer and have been an active member for many years as Local and Chapter President, Local Trustee, and Negotiating Team Chair. I have been an advocate in arbitrations, hearings and grievance meetings. I have participated in many rallies and job actions Local-wide.

Vote: Change 1021 to Member Run

Make it ours – Make it Strong

Thank You
